Ugo Ifezue

Product Designer

ifezue.ug@gmail.com
www.behance.net/ifezue

In addition to a strong background in design, I can create and/or translate UI/UX design wireframes to actual code that will produce visual elements of applications. I can bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works

WORK EXPERIENCE

Entermotion

Product Designer

As the sole UI designer, I was tasked with conducting design research into creating a new kind of learning experience:
- I created wireframes of the user experience, and high-fidelity mockups of the user interface, using Sketch app and Marvel app;

June 2018 - September 2018 │ Kansas, United States

Heftybyte

Senior UI Designer

1. Develop and maintain a detailed UI design style guide
2. Oversee the development and delivery of effective user interfaces across a range of client websites and mobile apps
3. Wireframe and prototype mobile and web app concepts

April 2017 - May 2018 │ New York, United States

Intelia.io

UI Designer & Developer

1. Built out mockups, wireframes for mobile apps and web apps
2. I crafted engaging user experiences and interfaces for clients' apps using Sketch, InvisionApp, Zeplin to create the design language of apps and hand over to developers
3. I created wireframes, storyboards, user flows, process flows and site maps to effectively communicate interaction and design ideas

October 2016 - April 2017 │ Lagos, Nigeria

ICH

User Interface / User Experience Designer.

1. I designed, prototyped, and developed the user interface for websites, using Sublime text (HTML, SASS, JQuery); Sketch
2. Researched user needs and requirements and identify areas where changes can make maximum impact on clients' web apps

March 2016 - August 2016 │ Lagos, Nigeria

VConnect

User Interface / User Experience Developer.

1. Developed the mobile site's layout-creating wireframes and mockups, and also building the presentation logic modules to piece the layouts together.
2. I ensured the product logically flows from one step to another—identifying verbal and non-verbal stumbling blocks to get the "best" user experience
3. Collaborated with product management and engineering to define and implement innovative solutions for the product direction, visuals and experience

May 2015 - March 2016 │ Lagos, Nigeria
